

MISCHER-SCHUTZ

Protecting and maintenance agent for mixers

Item No 1205

FIELDS OF APPLICATION

MISCHER-SCHUTZ is an agent for maintaining metal surfaces, particularly of stationary and mobile mixers, and for protecting them against the sticking of mortar and concrete.

APPLICATION QUANTITY

Depending on the surface structure and its contamination level, approx. 30 g/m² are required.

The application quantity might vary and needs to be determined in each individual case.

PROCESSING INDICATIONS

Machinery and equipment are hosed with fresh water and cleaned. Afterwards, MISCHER-SCHUTZ can be applied onto the wet surfaces by a suitable spraying gun.

Metal parts which are already contaminated with older hardened cement paste, concrete or mortar should be cleaned with BETONLÖSER and thoughtfully washed off with water.

This product is classified as hazardous according to the CLP regulations. See safety data sheet for further information.

PACKAGING

- 30 l can
- 200 l barrel
- 1000 l container

WORKING PRINCIPLE

Having excellent pressure absorbing capacities, MISCHER-SCHUTZ prevents metal surfaces from cement and concrete sticking.

MISCHER-SCHUTZ has a good creeping ability, which displaces water from cracks in the surface.

MISCHER-SCHUTZ contains anti-corrosive additives which decrease the corrosion risk on metal surfaces.

TECHNICAL DATA

Homogeneity	homogenous
Colour	yellowish
State	liquid
Density	0.88 ± 0.02 g/cm ³
Workability	from +1 °C
Shelf life	approx. 1 year from date of production if stored properly
Storage conditions	Store in unopened, original sealed packaging between +5 °C and +25 °C. Protect from frost and insolation.

REMARKS

This information describes the application- and processing possibilities of a product and its operation principles under regular conditions. Having no influence on the further application and processing, especially in conjunction with other construction materials, the given indication are neither a warranty in respect of the product's properties or its fitness for a particular purpose nor a full instruction of use.

This information, any other recommendation or verbal advice are not binding and do not infer to any liability or legal demand.

Due to continuous further development, the most recent Technical Data Sheet is valid and will be supplied on request. All orders are accepted subject to our current general terms and conditions.
